What Is Tinnitus?

Tinnitus is the perception of sound when no external sound is present. It often sounds like ringing, hissing or roaring.

How Can Sound Oasis Help?

Sound therapy has proven to be an effective source of tinnitus relief, especially at bedtime. This unit contains a superior selection of sounds recommended by audiologists around the world. These sounds create a soothing background sound that focus your brain on these pleasant, soothing sounds rather than your annoying tinnitus.

CONTAINS :
