## Cerumen Microsuction With Confidence

- ▶ Gentle, safe suction
- ▶ Easy visualization
- ▶ Shorter and thinner suction tips allow fine control
- ▶ Thorough infection management

For the first time in the USA, we're offering our Cerumen Microsuction set-up featuring the Cliq™ aspirator and Microsuction tips, to help doctors achieve excellent visualization of the ear canal.

Our unique Microsuction tips—with shorter working distance and narrow tubes—give every provider the confidence for quick and safe cerumen removal.

\*\* Designed for use with Vorotek O Scope™ or a wall mount microscope

### Cliq™ Vacuum Pump

- ▶ High-vacuum, low-flow suction
- ▶ Proprietary pump design for low-noise, high-efficiency performance
- ▶ Noise reduction housing with collapsible handle
- ▶ 800 ml canister with overflow protection
- ▶ Microbial filter with intake protection
- ▶ Adjustable vacuum with display gauge
